GEORGE FEDORCZYK
Chief of Police

With the goal of building on our current foundation of transparency and accountability, the New Jersey State Park Police (NJSPP) is pleased to announce that we are instituting a Body Worn Camera (BWC) program the week of February 5th, 2024. This endeavor will bring the NJSPP into compliance with directives issued by the Attorney General's Office. The purchase of 100 Motorola V300 Body Worn Cameras was funded through department funds and grant money awarded through the Office of the Attorney General. The BWC program involves all uniformed personnel assigned to patrol duties as well as administrative and investigative personnel where public interaction is likely. NJSPP personnel are required to wear BWCs and record all interactions with the public when carrying out official duties. Aside from the clear implications for accountability and transparency, the BWCs provide several other advantages. Complaints about officers can be investigated much more quickly and effectively when an audio and video record of the interaction is preserved. In addition, videos of interactions can serve as valuable training tools for the agency.
